

How do I Activate Adobe Flash Player for Vantage Contact Center (VCC)?

14 Fri, Jul 31, 2020 MAXcallcommand

Question

How do I Activate Adobe Flash Player for Vantage Contact Center (VCC)?

Answer

If signing into VCC and you are prompted with a warning similar to *"This content requires the Adobe Flash Player,"* the following steps can be done to enable Adobe Flash Player in your browser.

Google Chrome

Click the **padlock** icon in the HTML bar
On the dropdown next to **Flash**, click this and select *Allow*
Refresh the web browser page and sign into VCC

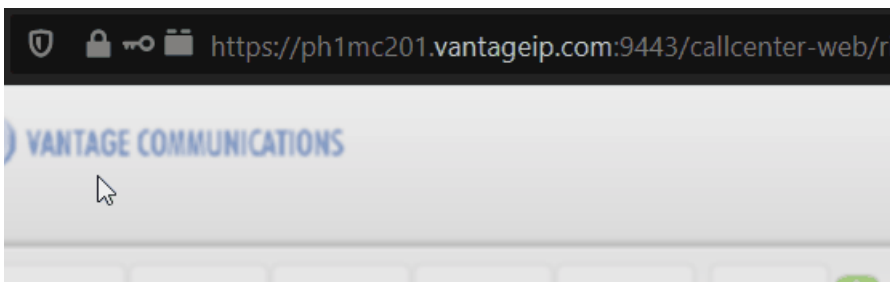

Alternate HTML content should be placed here. This content is

Mozilla Firefox

Click the **plug-in** icon in the HTML bar
On the window that appears right underneath, click **Activate**
Refresh the web browser page and sign into VCC

Microsoft Edge

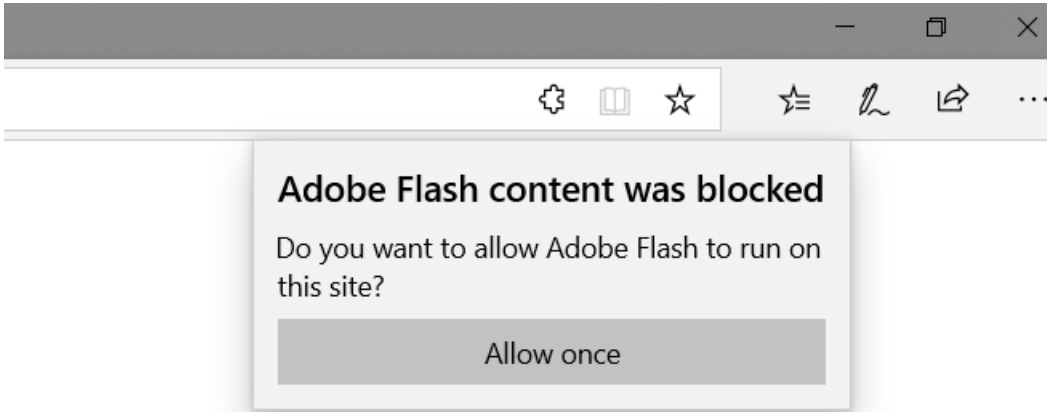

Sign into VCC with your credentials
When prompted that the content requires Adobe Flash, click the blue text stating **Get Flash**

https://ny7mc202.vantageip.com:9443/callcenter-web/richui.do

ould be placed here. This content requires the Adobe Flash Player. [Get Flash](#)

To the right, a window will appear. Click **Allow once** to enable flash
