# What are paging groups?

Question

What are paging groups?

Answer

Paging groups can be set up so that when dialed, multiple extensions will be dialed. Rules to follow when adding extensions are the following:

      For Cisco phones auto answer needs to be enabled manually.

	Button that will open the **Create Paging Group** page. Paging Group Information must be entered to create a paging group Name – Given name of the paging group.
Name	Given name of the paging group.
PG Extension	The assigned extension for the paging group.
# Extensions	Quantity of extensions that are currently selected to be paged.
Notes	Optional field that can describe the group.
Action	Options to edit and delete the group using ☐ and ☐.
