None

Note

Note

Customer	This will default to the customer to which the user belongs.
Group	You will have to choose the group to which this conference belongs. Choose this from the dropdown.
Owner	Selected user within the group that is the leader of the created conference.
Conference Title	Name given to the conference that is occurring.
Record Call	Toggle on or off to active/de-activate call recording.
Project Code	This is an optional field created by the user. This field takes alphabetical and numerical entries.
Start Date	Time and date that the conference will start. Labeled as YYYY/MM/DD.
Start Time	Dropdown menus to set the time, using 24-hour format.
Duration	The length of the conference.
Recurs	Option set if the meeting will reoccur. An option must be selected; none, daily, weekly, or monthly.
Note	A note can be entered for the conference to briefly explain the conference. This is an optional field.
