

# How can I create a conference in the Web Portal?

61 Mon, Feb 5, 2024 Conference Service

## Question

How can I create a conference in the Web Portal?

## Answer

The **conferences** tab allows you to add conferences. By pressing [+ Add Conference](#) takes you to the **Create Conference** page. This page requires various input in order for a conference to be created. Below is an example of this page.

None

Note

Note

<b>Customer</b>	This will default to the customer to which the user belongs.
<b>Group</b>	You will have to choose the group to which this conference belongs. Choose this from the dropdown.
<b>Owner</b>	Selected user within the group that is the leader of the created conference.
<b>Conference Title</b>	Name given to the conference that is occurring.
<b>Record Call</b>	Toggle on or off to active/de-activate call recording.
<b>Project Code</b>	This is an optional field created by the user. This field takes alphabetical and numerical entries.
<b>Start Date</b>	Time and date that the conference will start. Labeled as YYYY/MM/DD.
<b>Start Time</b>	Dropdown menus to set the time, using 24-hour format.
<b>Duration</b>	The length of the conference.
<b>Recurs</b>	Option set if the meeting will reoccur. An option must be selected; none, daily, weekly, or monthly.
<b>Note</b>	A note can be entered for the conference to briefly explain the conference. This is an optional field.
