

What changes can I make to my call handling?

68 Fri, Feb 2, 2024 Call Features

Question

What changes can I make to my call handling?

Answer

On your extension options that can be configured to define call flow when the line is busy or if there is no answer. They can be created around schedules as well.

Ring Busy

Scheduled Destination	<input type="text" value="*3005"/>
Un-Scheduled Destination	<input type="text" value="*3005"/>

Save

Schedules

Day Range	Time Range	Action
-----------	------------	--------

Add

Ring No Answer

Scheduled Destination	<input type="text" value="*3005"/>
Un-Scheduled Destination	<input type="text" value="*3005"/>

Save

Schedules

Day Range	Time Range	Action
-----------	------------	--------

Add

Ring Busy

This section of call handling defines call flow when the line is.

Schedule Destination

The 4-digit extension or 10-digit phone number that will ring during scheduled hours.

Un-Scheduled Destination

The 4-digit extension or 10-digit phone number that will ring outside of any scheduled days/hours.

Ring No Answer This section of call handling defines call flow when the call is not answered.

Schedule The 4-digit extension or 10-digit phone number that will ring based off of the schedule that was created.

Destination

Un-Scheduled The 4-digit extension or 10-digit phone number that will ring at any time. If there is a schedule, this will not ring during that time.

NOTE: Using an "*" ahead of a 4-digit extensions delivers the caller directly into the extension's voicemail.
