

What changes can I make to my call handling?

68 Fri, Feb 2, 2024 Call Features

Question

What changes can I make to my call handling?

Answer

On your extension options that can be configured to define call flow when the line is busy or if there is no answer. They can be created around schedules as well.

Ring Busy

Scheduled Destination

Un-Scheduled Destination

Ring Busy

This section of call handling defines call flow when the line is.

Schedule

The 4-digit extension or 10-digit phone number that will ring during scheduled hours.

Destination

Un-Scheduled

The 4-digit extension or 10-digit phone number that will ring outside of any scheduled days/hours.

Destination

Ring No Answer This section of call handling defines call flow when the call is not answered.

Schedule The 4-digit extension or 10-digit phone number that will ring based off of the schedule that was created.

Destination

Un-Scheduled Destination The 4-digit extension or 10-digit phone number that will ring at any time. If there is a schedule, this will not ring during that time.

NOTE: Using an "*" ahead of a 4-digit extensions delivers the caller directly into the extension's voicemail.
